

CIP Systems Division

In a World of Technology - Quality Makes the Difference

Applications

Food Grade CIP

- Tank Trailer Wash
- Railcar Tank Wash
- IBC Tote Cleaning
- Meat Processing
- Dairy / Cheese
- Vegetable Process
- Snack Foods
- Drinks & Juices
- Aseptic Packaging
- Salad Dressing
- Sauce Blending

Related Components for System Completion

- Boilers
- Boiler Feed Systems
- Heat Exchangers
- Spinner Nozzles
- De-Emulsification
- Filters and Strainers
- Sump Lift Stations
- Control Panels
- Holding Tanks
- Transfer Pumps
- Wastewater Systems
- Bag Filters
- Oil Sorbent Filters
- Effluent Instruments
- Effluent Recording
- Platforms and Stairs
- Air Dryer Blowers

Food Grade CIP Tank Wash System

The Applied Mechanical Technology CIP-F is a high performance, operator friendly food grade CIP "Clean In Place" tank wash system capable of providing high volume hot water and cleaning solutions in easily operator programmable recipes and cycles. Cleaning, rinsing and sanitizing solutions are delivered from a fully automated multi tank, pump, valve and controls system. The CIP-F is well suited for cleaning a wide variety of food grade applications including Tank Trailer, IBC Totes, Railcar Tanks, Intermodal Tanks and large scale food processing plants.

The CIP-F is available in a variety of configurations to suit any application. Many standard and custom systems to choose from. Combined with our operator programmable control system you get complete control of the cleaning process to meet customer expectations while saving time, money and energy. The systems are made from 304 stainless steel with 3A FDA piping and fittings for easy cleaning and maintenance. Modular design means easy installation and expansion.

APPLIED MECHANICAL TECHNOLOGY—A WORLD CLASS SUPPLIER

Applied Mechanical Technology is a *FULL SERVICE* supplier to the CIP Tank Trailer and Food Processing industry. We not only design and build the core technology of our systems and equipment but we also install, optimize, startup, train operators and service them too. If you need a simple pump—or a complete multi bay tank trailer cleaning system, we have the resources to help.

Value by Design—High Performance and Low Cost
